ABOUT ME

"Enthusiastic and self-motivated professional with a solid foundation in Computer Science. I've honed my technical expertise by working as a PHP Laravel web developer for the past 1 year and 10 months. My tenure in this role has fortified my programming skills, particularly in PHP and the Laravel framework. Seeking opportunities that will further enhance my abilities and contribute meaningfully to the company's success."

EXPERIENCE   June(2023) - March(2025)

JUNIOR WEB DEVELOPER (LARAVEL) ALPHASOFTZ SOLUTIONS, TRICHY.

As a PHP Full Stack Developer, I've Successfully implemented and maintained frontend designs, ensuring a seamless user experience. Developed robust backend solutions, contributing to the overall efficiency of the web applications. Managed and optimized databases, enhancing data retrieval and storage processes. Collaborated with cross-functional teams to tackle complex projects and deliver highquality results. Continuously learned and adapted to evolving technologies in the dynamic field of web development.
